

## **Haz Llover (Make It Rain)**

Make it rain over this place.

I am thirsty for You.

Come and satiate today the thirst that is in me.

Fill me with You.

Come, for I need you to refresh my inner being.

Come, for I want more of You.

Make my cup overflow until I feel Your Presence shaking my inner being.

Come and touch me.

Embrace me. Wrap me up in You, Lord.

**Your rain is falling.**

**Your glory is descending.**

**Your fire is burning in me.**

**Your rain is healing.**

**Your glory is restoring.**

**Your fire is on me today.**

**//Rain, fall today on me...//**
